

I'm in touch with nature

PORTUGAL

EFFECTIVE COMMUNICATION
A SUCCESSFUL FUTURE LIFE
2015 / 2018

We like to go out into the countryside and observe nature.

Sometimes we collect plants and small animals to study in the classroom and better understand the animals and plants and the world we live in.

Sometimes we collect plants and small animals to study in the classroom and better understand the animals and plants and the world we live in.

We observe well everything that goes on around us.....

We work as a team.

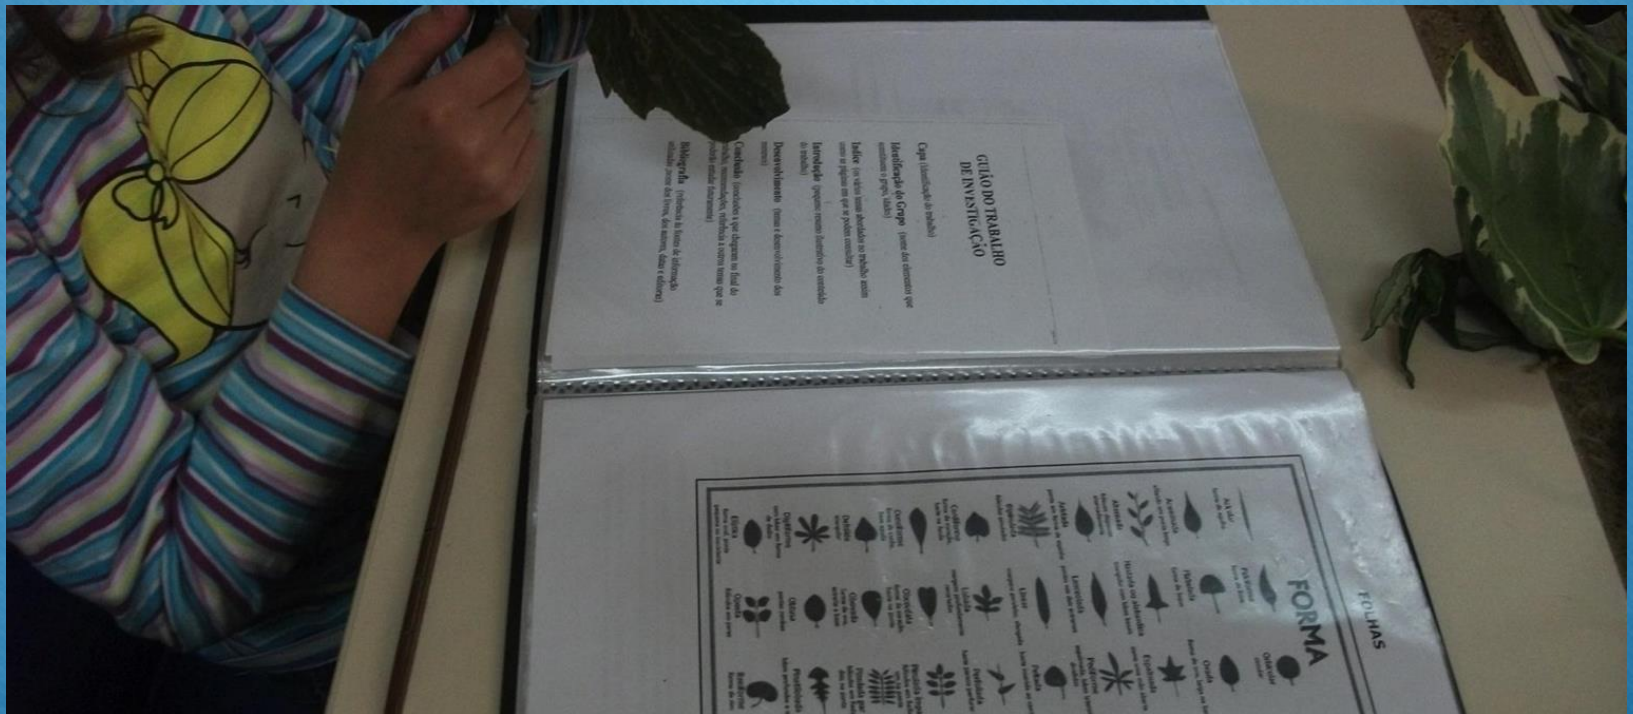

We carefully collect objects to study.

We designed in detail everything we observed.

We consulted the tables and cataloged the plants (leaves and roots).

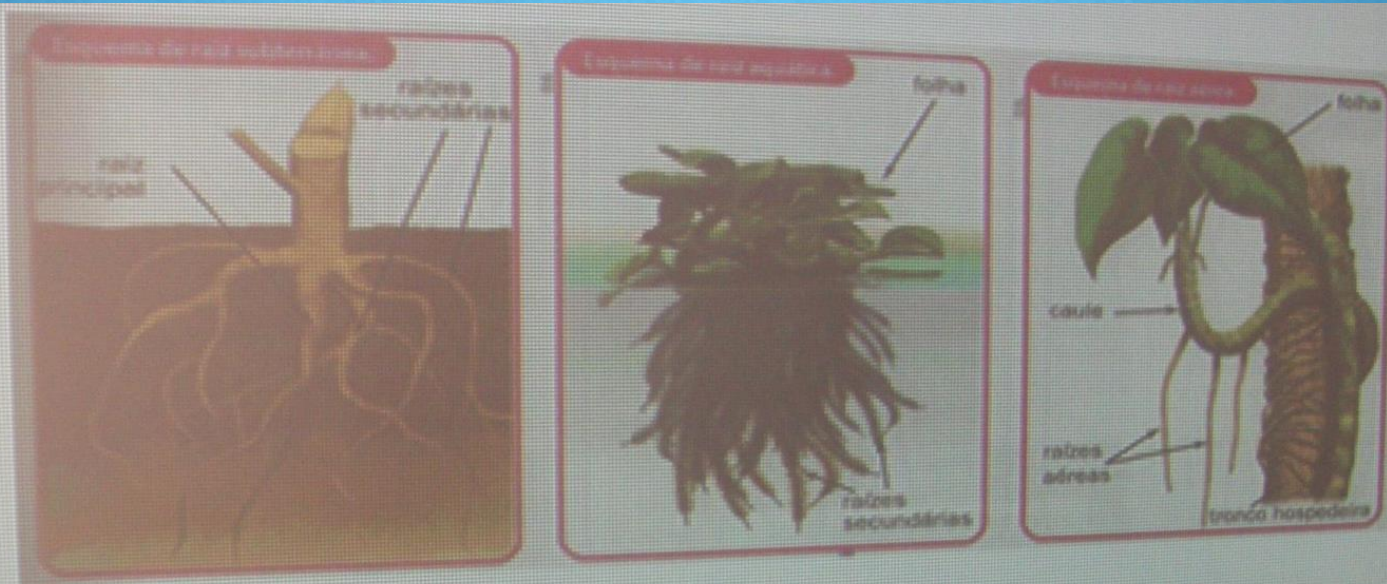

We consulted the tables and cataloged the plants (leaves and roots).

We record in writing all the information collected.

We search the internet for more information to deepen and complement our researches.

We visit, presentially and virtually expositions about animals in extinction.

We visit, in person and virtually exhibitions on nature (plants and water resources).

We visit, in person and virtually exhibitions on nature (plants and water resources).

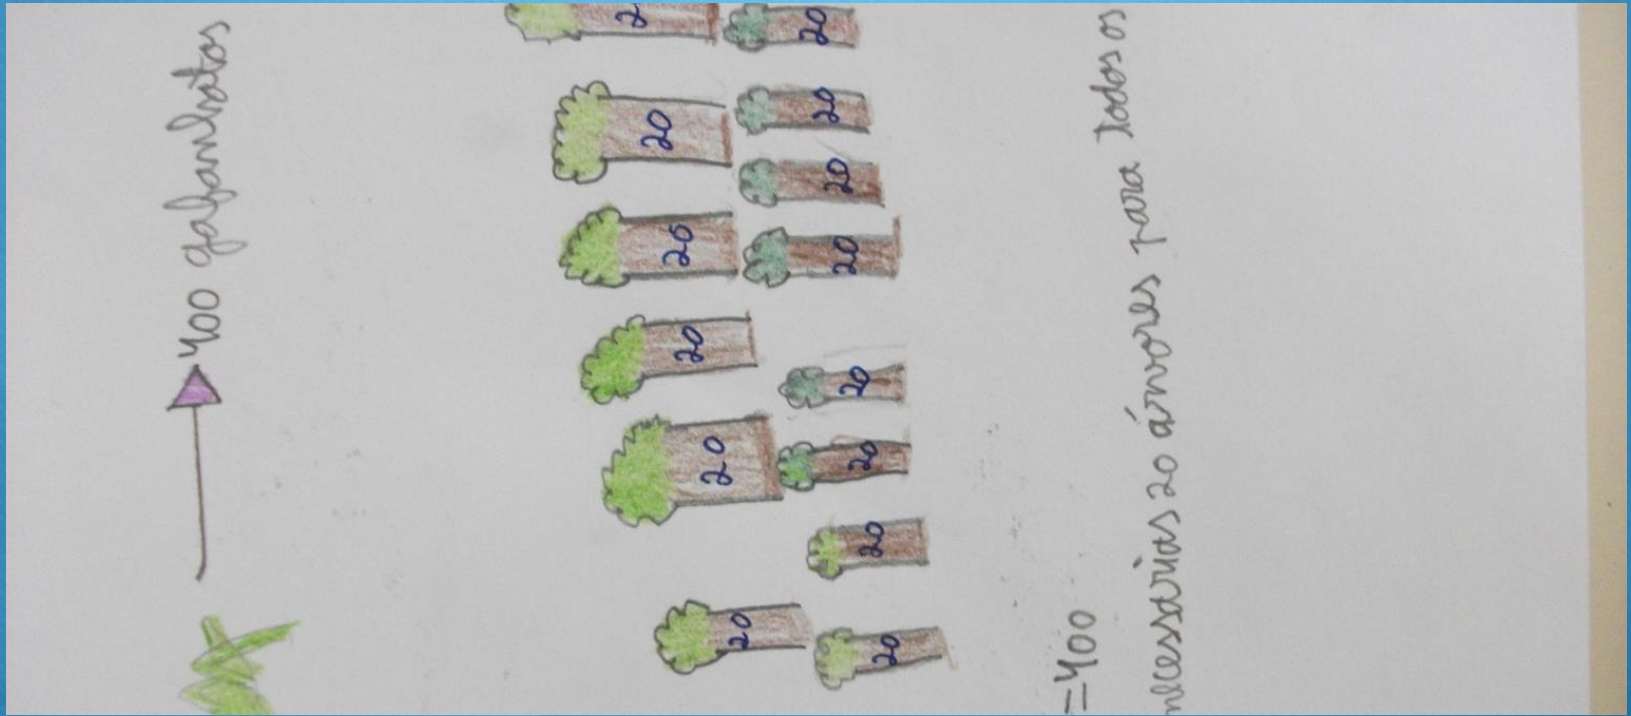

We work the plastic expression.

We work the plastic expression.

We work math.

We organize the collections according to the characteristics.

We observe the details and reproduce through the drawing.

We observe the details and reproduce through the drawing.

We observe the details and reproduce through the drawing.

We write protocols for observation and cataloging of plants and animals.

Observando Invertebrados....

Nome do invertebrado: centópia

	Partes do corpo	antenas	olhos	patas	asas
Como penso que é		X		 nº 100	X
Observei e verifiquei que		X		 nº 97	X

Vou Pesquisar mais um Pouco....

modo de Vida	vive em locais quentes para se fazer ao sol e gosta de estar em rochas e pedras
que Comem	comem insetos, aranhas, etc.
como se movem	andam sobre as patas e ondulam o corpo
como se reproduzem	fazem ovos para os seus filhotes
aparência	tem muitos olhos, tem uma mais forte assim
hábitat de Vida	na floresta
como se reproduzem	as centípedas nascem assim

ou Ilustrar...

1. F. X.

Each working group shares with colleagues their research.

Each working group shares with colleagues their research.

And, finally, we always return animals to nature.

A stylized illustration of a bright yellow sun with a blue circle in the center, partially obscured by blue and white clouds. The background is a solid blue color.

EARTH

- is our home,
- we need to protect it.
