The 3rd LTTA of the project named “Stereotyping stops creativeness”, contract number 2017-1-BG01-KA219-036268 in Key Action 2 “Cooperation for innovation and the exchange of good practices”, section “Strategic partnerships for schools only”, under Erasmus+ program of the European Commission - a project co-funded by the European Union

Report for the Third Learning/Teaching/Training activities – Granada, Spain – C3 – 07-13.11.2018

The delegations from Bulgaria, Italy, Romania and Turkey travelled to Granada, Spain on 7th of November 2018.

The next day, Thursday, 08.11.2018 we went to the Spanish school. We had a fully prepared program for the day and almost no free time. After the welcoming ceremony hosted by the Principal of the school Ave Maria Casa Madre in Albaicyn neighbourhood of Granada, students got to know each other. Our first task there was to show a presentation about our school and our city. The participants in the project – the Bulgarians, the Romanians, the Turkishs, the Italians and the Spanish gave short description of their country and school.

After that, the students split us into groups, to take a look at the school and to get to know each other better. We were amazed at the size of the school, from the teaching methods that have been used in the past and are preserved to this day. Then we went to the so-called coffee break and even the dining room huge size ... Later at noon we had a "Workshop", to which we were again divided into groups. We had to choose and draw several religious symbols and then stick them to a blue ball which was our planet Earth. We left school, filled with positive emotions and with several new friendships made.

On Friday, 09.11.2018, we again had a visit to the school. In the morning, immediately after we arrived, we had to show presentations on "Stereotypes about Religions" among the other nationalities. It was really nice to see what the others think about this topic, as well as to present our own opinion. After the presentations, we had lunch and then free time,

where we looked around the school area. We returned with recharged forces for the second activity of the day - "Workshop". We were tasked to make a poster on the same subject as our presentations earlier. Again we were divided into groups and we could use the handy materials purchased by the school. In the groups, it was quite enjoyable because we all exchanged ideas. Finally, each group managed to present their poster to others. We all listened, and we came to the common understanding that stereotypes about religions and, in general, are a false and a bad thing. Later in the evening we went to dinner and tried some typical Spanish dishes.

Saturday, 10.11.2019. We had a prepared tourist entertainment, and it was to see the Alhambra. We very excited because we knew this is the biggest landmark in Granada. We visited the Nasrin Palaces and the palace of Karl V and many exhibitions. We emerged into the history of Spain.

The view from there to the city of Granada was magnificent. The entire city, even the mountain, was visible. The nature was exceptionally beautiful. After the walk, we went to a very nice seafood restaurant where we tried shrimps and other seafood. After lunch we had a lot of time to shop for everything before dinner time.

Sunday, 11.11.2018. One of our favorite days. After breakfast, we headed for the Granada Science Museum. We were divided into two large groups and we entered the hall where there were biological games, information about the human body and all sorts of things like that. We all looked with great interest and tried to be as expeditious as possible because our time was, unfortunately, limited. In the next room there were many aquariums with different types of fish, sharks, jellyfish, even crocodiles and otters. Then we went into the other room, which was made to look like Madagascar. There were lemurs jumping around us, and it was all perfect to the last detail. We were moving fast and very soon we were outside, sitting down, waiting for the next wild bird show. Then we were in a Butterfly house, which we loved very much, and then on a planetarium. We saw so many things in just a few hours. We ate and went back to the hotel.

On Monday, 12.11.2018 we had to go to our last day at school. We were all sad but grateful for the friendships we have created. On this day, our program included "Workshop" for traditional dances. Again we were divided into groups and then everyone had to show what they had learned. We had to learn the Spanish Flamenco and after a long training, we succeeded. We had lunch and then gathered in the hall. Everybody was applauding and enjoying the dance even if they did not know it well, they danced too. After we showed our dances, we started dancing other dances which were not in the program and we were all very entertained ... The time had come to say goodbye, there were many tears, hugs and promises. We left the school with the hope that we will see some of our

new Spanish friends again when they come to Bulgaria ... In the evening we had a last dinner and a real Flamenco show, which we enjoyed a lot. We felt the dance and the dancers' emotions.

In the end of the meeting the partners filled in their names in the list of participants and received their declaration of attendance and certificates.

Tuesday, 13.11.2018 the participants in the 3rd LTТА travelled back home.

All the partners agreed that the 3rd LTТА was successful.
